

COMPANY PROFILE

企业简介

Established in 2013, ROGO INDUSTRIAL (SHANGHAI) CO.,LTD is located in China's economic center-Shanghai, which is an export-oriented enterprise under J.X.Y Group.

Founded in 2007, J.X.Y Group is a company integrated with independent Design, R&D, Production and Sales, which is the most influential company in the field of coating steel products. The Group possesses five most advanced color coated steel lines, three hot dip galvanized steel lines and one high-level advanced gavalume line in China. With an annual production of 1.4 million tons. By standard management system and scientific operation, the group has passed in succession ISO9001, ISO14001 and OHSAS18001.

As an export-oriented enterprises, over the past 4 years, ROGOSTEEL focused on improving the quality of products and promoting the service. By all the staff's effort, ROGOSTEEL have built cooperative relationship with nearly 200 customers from 68 countries in Asia, Europe, South America, Oceania and Africa, and earned a good reputation for integrity and pragmatic way.

As a powerful team in the field of coating steel plate, ROGOSTEEL would like to walk together with you to create a better world.

By adhering to the concept of "open and tolerant minds, aggressive spirit, The courage to challenge", All the staff in ROGOSTEEL always pursue personal growth and team development. Under the background of complicated and volatile economic environment abroad, ROGOSTEEL will make arduous effort on brand of J.X.Y- ROGOSTEEL spreading around the world.

冷轧

Cold Rolled Steel

Thickness: 0.12-2.0mm, width: 600-1250mm

Product categories: carbon structural steel, high quality carbon structural steel, low alloy steel, low-and-middle-grade silicon steel, high-strength steel and full hard coil

Scopes of application: building materials, household appliance components and parts, automobile manufacturing, hardware, machining, packaging, etc.

- 钢板厚度0.12-2.0mm,宽度600-1250mm
- 产品类别有碳素结构钢、优质碳素结构钢、低合金钢、中低牌号硅钢、高强度钢、轧硬卷等
- 广泛应用于建材建筑材料、家用电器零部件、汽车制造、五金、机械加工、包装等。

PRODUCTS CENTER

产品中心

Thickness: 0.125-2.0mm, width: 600-1250mm, coating mass: 40-275g/m²

Surface: zero spangle, small spangle, regular spangle and big spangle

Surface treatment methods: oiled, oiled plus chromated, passivated

Scopes of application: building materials, light industry, automobile, machining, hardware fitting, etc.

- 钢板厚度: 0.125-2.0mm, 宽度600-1250mm, 镀锌量40-275 g/m²
- 表面结构有零锌花、小锌花、普通锌花、大锌花
- 表面处理方式有涂油、涂油加钝化、钝化
- 主要用于建材、轻工、汽车、机械加工、五金配件等行业

Thickness: 0.14-1.5mm, width: 600-1250mm, coating mass: 40-275g/m²

Surface treatment methods: anti-finger print, oiled, oiled and chromated, passivated

Scopes of application: household appliance, building materials, automobile, power, communication, etc.

- 钢板厚度: 0.14-1.5mm, 宽度600-1250mm, 镀锌量40-275 g/m²
- 表面处理方式有耐指纹、涂油、涂油加钝化、钝化
- 用于家电、建材、汽车、电力、通讯等行业

Thickness: 0.13-1.5mm, width: 600-1250mm, coating mass: 40-275g/m², coating thickness: Top 15-40μm Back 5-20μm

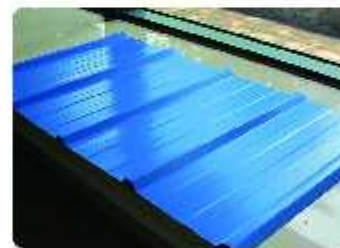

Well adhering to the base plate, the coating are easy to process and form, good weather resistance and outdoor stability. When used in general environments, the anti-corrosion effect may last for 10 years, depending on the requirements for the coating mass. Products of various bright colors are provided for selection.

Scopes of application: building roofing, outdoor wall panel, decorative steel, roller shutter door, steel door, household appliance, etc.

钢板厚度: 0.13-1.5mm, 宽度600-1250mm, 镀锌量40-275 g/m², 涂层厚度: 正面15-40μm 背面5-20μm

涂层与基板有良好的附着性, 易于加工成型, 有良好的耐候性能和室外稳定性。在一般环境中应用, 防腐性能可达10年。同时拥有多种亮丽的色彩可供选择

可用于建筑压瓦板、外墙板、装饰板、卷帘门、钢制门、家电等产品

Beautiful and stylish, rich colors, strong decorative, flexible combination can express a different architectural style

Has a good skin steel, waterproof agent, good seismic performance

Scopes of application: building materials, decoration, outdoor wall panel, warehouse, etc.

造型美观新颖, 色彩丰富, 装饰性强, 组合灵活多变, 可表达不同的建筑风格

具有良好的表皮硬度, 防水抗腐蚀性良好

可用于建材、装饰、外墙板、仓库等产品
